Special Interest Group
Aquatic Insects

Our Aquatic Insects Special Interest Group event brings together researchers, conservation practitioners and enthusiasts to explore cutting-edge approaches in aquatic ecosystem monitoring and management. Join us for a full day to hear from Keynotes Professor Michael J. Samways and Dr Jessica Ware, plus many other researchers, with an optional morning workshop on Friday 27 February (included with your registration).

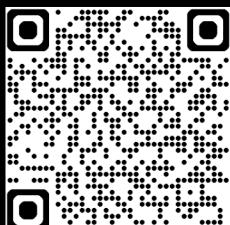

Keynotes

Michael J. Samways, Stellenbosch University
Jessica Ware, American Museum of Natural History

Day 2 – Optional Workshop

Join for a second day of online research with our workshop on Data-Driven Approaches to Aquatic Ecosystem Assessment. This optional half-day workshop focuses on a hands-on R workshop exploring machine learning applications with aquatic macroinvertebrate and environmental data.
